

## Whirlpool® AirCare™ Whole Home Dehumidifier

Comforts of Home from  
Whirlpool® Home Cooling & Heating

# Whirlpool® Whole Home Dehumidifier

- **Heavy-Duty Moisture Removal**

The 160 Series Whole Home Dehumidifier removes up to 160 pints of moisture per day from the air in your home, providing maximum performance for more comfortable living.
- **Bring Fresh Outside Air to the Inside**

Enjoy the benefits of outside air in the comfort of your home with the Whirlpool® Whole Home Dehumidifier. It conditions the fresh air and introduces it into your duct system for distribution throughout your living space.
- **HEPA Filter Protection**

HEPA filtration technology in units WGDH160UH and WGDV160UH provides extra defense from air particles and allergens in your home. With 99.97% efficiency, no more than 3 in 10,000 particles ever penetrate through the filter.
- **Antibacterial Ultraviolet Light Protection**

Whirlpool Gold® models WGDH160UH and WGDV160UH are equipped with an internal UV(C) lamp to kill bacteria and other microorganisms that could grow on internal coils and condensate drip pans.
- **Long Life Filters**

MERV® 8 and 11 filters last up to 12 months. The HEPA, or MERV® 20 filter, can last up to 2 years (depending on indoor air quality).
- **Configured for Your Home**

Choose the system that suits your needs: Horizontal WGDH160UH, WPDH160XS or vertical WGDV160UH, WPDV160XS.
- **Consistent Performance, Easy Maintenance**

For maximum efficiency, have a technician replace prefilters and clean units every 6 months and replace high-efficiency filters once a year.

The Whirlpool Gold® AirCare™ Whole Home Dehumidifier System can be integrated with a home's existing HVAC duct work or installed as a stand alone system. With the capacity to remove up to 160 pints of water per day, Whirlpool® AirCare™ and Whirlpool Gold® AirCare™ systems offer the best dehumidification performance available to the residential market.

**Whirlpool® AirCare™ systems** WPDH160XS and WPDV160XS are equipped with a MERV\* 8 prefilter and a High Efficiency MERV\* 11 pleated primary air filter. Both units provide excellent air filtration.

**Whirlpool Gold® AirCare™ systems** WGDH160UH and WGDV160UH come with a MERV\* 8 prefilter and a High Efficiency MERV\* 20 (HEPA) primary filter, along with an airflow sensor that connects to a compatible thermostat to alert you when to change the filters. These two models are also equipped with an exclusive internally mounted UV light to kill airborne bacteria and prevent microorganisms from growing inside the cabinet. This germicidal filtration package, combined with the UV light, is unlike any other on the market.

**Whirlpool® AirCare™ Systems**  
WPDH160XS and WPDV160XS

**Whirlpool Gold® AirCare™ Systems**  
WGDH160UH and WGDV160UH

## Warranty Information

Whirlpool® AirCare™ and Whirlpool Gold® AirCare™ Whole Home Dehumidifier System products are covered by a 1-year parts and 5-year compressor warranty. See warranty or contact your dealer for specific details.

\*The MERV (Minimum Efficiency Reporting Value) rating of a filter describes the size of the holes in the filter that allow air to pass through. The higher the MERV rating, the higher the efficiency of the filter and the smaller the holes.

# Enjoy a New Level of Comfort

Millions of people are spending more and more time at home, unaware of the allergen levels that can build up without proper ventilation and humidity controls. Reducing your exposure to allergens is key to improving indoor air quality.

The Environmental Protection Agency (EPA) and the American Lung Association agree that proper ventilation, humidity control and filtration are vital for healthy indoor air.

The most common allergy-producing organisms found in the home can be reduced through humidity control and air filtration. Help reduce mold and dust mites from the air by incorporating a Whirlpool® AirCare™ Whole Home Dehumidifier in your home.

Whirlpool brand whole home dehumidifiers have the capacity to mix and filter fresh outside air with the home's existing air to keep humidity at an optimal level while diluting the concentration of pollutants.

Reliable HVAC products from the brand renowned for  
making your life easier and more efficient every day
